ABOUT AL WASIT CABINS

Al Wasit Cabins is a leading provider of prefabricated building solutions in Qatar, dedicated to create value and make a difference by providing affordable and sustainable solutions.

Al Wasit Cabins (AWC) was founded in 1993 by Mr. Ibrahim Mohamed Al Mohannadi, and has since become a leader in the construction sector with its prefabricated building solutions.

With over 30 years of experience, we have established ourselves as a reliable and trusted partner for our clients. Our state-of-the-art technology and modern facilities enable us to produce high-quality prefabricated units that are energy-efficient and suitable for severe weather conditions. Our goal is to ensure customer satisfaction by delivering projects on time and within budget.

ABOUT GETC GROUP

GETC Group was established in 1993 by Mr. Ibrahim Mohamed Al Mohannadi and is a versatile Civil & Infrastructure Contractor that offers a full range of services.

Our services include EPC projects, excavation, site development, demolition, grading, delivery, and disposal of fill material. With an extensive fleet of equipment, we provide a broad scope of services to a variety of clients in both the public and private markets. Al Wasit Cabins is one of the sister companies of GETC Group, and together we are committed to providing our clients with the highest quality products and services.

LEADERS IN PREFABRICATED UNITS

Our products have reached all across Qatar, and we are committed to maintaining our position as a leader in the industry.

We manufacture prefabricated units that are compliant with international quality standards and are energy-efficient, durable, and suitable for severe weather conditions. Our team is made up of experts in their respective specialties, and we are constantly learning and innovating to meet the changing needs of our customers. We are dedicated to providing the world with affordable products that make life better and preparing people for a safer and sustainable future.

OUR OBJECTIVES

QUALITY

Delivering products and services that meet the highest standards of quality and exceed clients' expectations.

SAFETY

Ensuring the safety of our employees, clients, and the environment in all aspects of our operations.

GROWTH

Achieving sustainable growth and profitability by leveraging our assets and resources effectively.

INNOVATION

Continuously innovating and improving our products, services, and processes to stay ahead of the competition.

COLLABORATION

Continuously innovating and improving our products, services, and processes to stay ahead of the competition.

PRODUCTIVITY

Improving the efficiency and productivity of all our operations through a systematic approach and continuous improvement initiatives.

WHY CHOOSE AL WASIT

INNOVATION

We always strive to innovate and deliver better products to meet the ever-changing needs of the market.

SUSTAINABILITY

Committed to building a safer and sustainable future by using energy-efficient materials and complying with international quality standards.

FORWARD - THINKING

A forward-thinking company that is constantly looking towards the future to ensure that its products remain relevant and innovative.

AFFORDABILITY

Providing affordable products that make lives better, without compromising on quality or standards.

OUR SERVICES

FRAMECAD

FRAMECAD's ultramodern cold roll forming machine leads the way in accuracy and speed.

PREFAB HOMES

Our pre-manufactured homes offer a fast and cost-effective solution for your housing needs.

MODULAR CABINS

Our modular cabins offer a comfortable and sustainable living experience.

FINISHING WORKS

Our finishing works ensure the highest quality and aesthetic appeal for your construction project.

STEEL STRUCTURE & BUILDINGS

We specialize in designing and constructing steel structures & buildings of various sizes and purposes.

LIGHT GAUGE STEEL STRUCTURES

Our light gauge steel structures provide a durable & cost-effective solution for your construction needs.

PREFABRICATED FARM VILLAS

Our prefabricated farm-villas offer a comfortable and functional living space for your lifestyle.

BUILDING MAINTENANCE

We provide comprehensive building maintenance services to ensure the longevity of your building.

FRAMECAD

MANUFACTURING EQUIPMENT

With a focus on ongoing innovation, FRAMECAD's ultramodern cold roll forming machine leads the way in accuracy and speed. Cold roll forming machine, also known as a rollformer, is used to form high-strength steel components at room temperature and is often used to process long lengths of metal to produce.

FRAMECAD CFS SOFTWARE

Intelligent FRAMECAD integrated CAD software makes the process of engineering, designing and detailing each project fast, simple and highly accurate. MyFRAMECAD gives you online access to real time production information from your factory, 24/7 technical support, design and engineering tools, and marketing resources.

MYFRAMECAD

MyFRAMECAD is our cloud-based customer portal designed to assist your business management and improve your cold formed steel design and production. The FRAMECAD CFS cold formed steel design software suite incorporates design, engineering calculations, structural analysis, detailing, and roll-forming machine control.

SUPPORT SERVICES

At Al Wasit, we stand by our software and equipment. We use the knowledge and support to empower our customers to get the very best from the FRAMECAD System. At FRAMECAD we stand by our software and equipment. We provide the knowledge and support to empower our customers to get the very best from their FRAMECAD System.

PREFAB HOMES

INNOVATIVE DESIGNS

Al Wasit offers innovative and modern prefab home models that cater to customers' preferences. With ergonomic house plans and aesthetically pleasing designs, our prefab homes provide comfortable living spaces inside and out.

FACTORY PRODUCTION

Our prefabricated homes are produced inside a factory using high technology and a solderless production system that uses screws instead of welding. This allows for efficient and high-quality production, resulting in a finished product that meets the highest standards.

CUSTOMIZATION OPTIONS

We understand that every customer has unique needs and preferences when it comes to their home. That's why we offer a wide range of customization options, including finishes, fixtures, and furnishings, to ensure that our prefab homes meet your exact specifications.

SATISFACTION GUARANTEED

With our commitment to quality production and customer satisfaction, we guarantee that you will be satisfied with your Al Wasit prefab home. Our experienced team of professionals is dedicated to delivering a high-quality product that exceeds your expectations.

MODULAR CABINS

CUSTOMIZABLE LIVING SPACES

Al Wasit modular cabins provide customizable living spaces for various purposes. Whether you need a cabin for a remote work site or a temporary living space, our modular cabins are the perfect solution. The cabins are designed to meet your specific needs, with various sizes and layouts available. They are also easy to assemble and disassemble, making them perfect for temporary projects.

COST-EFFECTIVE ACCOMMODATION

Al Wasit has successfully completed more than 1000 projects in Qatar, producing worksite prefabricated buildings such as administration offices, dormitories, dining halls, entertainment and recreation areas, places of worship, and water closets and shower units. This diverse range of modular buildings highlights the versatility and practicality of the modular construction approach.

DURABLE AND WEATHER-RESISTANT

Al Wasit modular cabins are built to withstand harsh weather conditions and are designed to be durable. They are produced using high-quality materials, including insulated panels and steel frames, which provide strength and protection against the elements. They are also easy to maintain, with a low need for repairs.

VERSATILE AND PORTABLE

Al Wasit modular cabins are versatile and can be used for a range of applications, including as temporary offices, site accommodations, and even as mobile homes. They are also portable, making them easy to move from one location to another. This makes them an ideal solution for remote sites or temporary projects where flexibility is required.

FINISHING WORKS

FLOOR FINISHING

Uses 18mm thick cement board and 2mm PVC Vinyl sheet for dry areas. Wet areas use 2mm PVC Vinyl sheets with ceramic tiles finish as an option. Provides 50mm thick PVC boomer skirting finish for better waterproofing

CEILING FINISHING

Uses PVC laminated gypsum tiles and aluminum ceilings for toilets and ablution units. Gypsum board finished with emulsion or enamel paint for wet areas

WALLS & DOORS & WINDOW FINISHING

Uses light gauge steel C-Channel profile framing for wall framing. External wall finishes with texture coated paint on 6mm thick cement boards. Provides glass wool insulation for internal and external walls.

TOILET FINISHING

Toilet finishing includes the installation of toilet fixtures and fittings such as toilets, urinals, sinks, taps, and mirrors, as well as wall and floor finishes that are durable and easy to clean.

STEEL STRUCTURE & BUILDINGS

STRUCTURAL STRENGTH

Al Wasit's steel structure and building solutions are built with high-strength steel for maximum durability and safety. The company uses advanced technology and quality materials to ensure that each structure is engineered to withstand harsh environmental conditions.

VERSATILITY

Al Wasit's steel structures and buildings are highly versatile and can be customized to suit a wide range of applications. The company can design and manufacture structures for warehouses, workshops, office buildings, schools, and many other uses.

SUSTAINABILITY

Al Wasit's steel structure and building solutions are environmentally friendly and sustainable. Steel is one of the most recyclable materials in the world, and Al Wasit ensures that its products are designed for long-term use and minimal waste.

COST-EFFECTIVE

Al Wasit's steel structures and buildings offer an affordable alternative to traditional building methods. The use of steel reduces construction time and labor costs, making it a cost-effective option for a variety of applications. The company also offers flexible payment plans to help clients manage their budget.

LIGHT GAUGE STEEL STRUCTURES

HIGH-QUALITY STEEL STRUCTURES

Al Wasiat is an expert in the design, engineering, and manufacturing of light gauge steel structures for various applications.

EFFICIENT AND SUSTAINABLE

The use of light gauge steel structures in construction is an efficient and sustainable way to build. Al Wasiat provides these benefits through its state-of-the-art manufacturing facilities and high-quality materials.

VERSATILE AND DURABLE

Light gauge steel structures offer versatility and durability, making them suitable for a range of applications, from residential buildings to commercial and industrial facilities. Al Wasiat provides customized solutions to meet clients' specific needs.

FASTER AND COST-EFFECTIVE

Al Wasiat's light gauge steel structures are manufactured offsite, allowing for faster and more cost-effective construction projects. The structures are designed to meet strict industry standards and are easily assembled on-site, reducing construction time and costs.

PREFABRICATED FARM VILLAS

DURABLE AND SUSTAINABLE

Al Wasit's prefabricated farm villas are built with durable and sustainable materials that can withstand harsh weather conditions and resist corrosion. The use of steel framing and high-quality insulation ensures the buildings are energy-efficient and long-lasting.

CUSTOMIZABLE DESIGN

Al Wasit offers customizable design options for their prefabricated farm villas to meet the unique needs of each customer. The buildings can be designed with various room configurations, sizes, and finishes to accommodate different requirements.

FAST AND EFFICIENT CONSTRUCTION

Prefabricated farm villas by Al Wasit are built off-site in a controlled environment, allowing for fast and efficient construction. This method significantly reduces construction time and costs, and eliminates the need for lengthy on-site work.

VERSATILE APPLICATIONS

Al Wasit's prefabricated farm villas can be used for various applications, including as farmhouses, rural vacation homes, or temporary accommodations for farm workers. The buildings are adaptable and can be relocated and repurposed as needed.

BUILDING MAINTENANCE

BUILDING MAINTENANCE SERVICES

Al Wasit is an expert in the design, engineering, and manufacturing of light gauge steel structures for various applications.

PLANNED PREVENTATIVE MAINTENANCE

Their planned preventative maintenance program helps ensure the long-term health of a building's systems and equipment, reducing the risk of costly breakdowns and repairs.

REACTIVE MAINTENANCE

In addition to planned maintenance, Al Wasit also offers reactive maintenance services to address unexpected issues, such as leaks or equipment failures.

BUILDING REFURBISHMENT

Al Wasit's building refurbishment services help to revitalize and update older buildings, improving their functionality, energy efficiency, and overall appearance.
